Handling & Storage

Storage Store in temperature between 5°C and 30°C
 Avoid stacking containers on each other. Incompatible materials - none.
 Recommended materials for packaging - plastic materials

Personal Protection

Respiratory If spraying wear dust mask
Hand Impermeable gloves recommended
Eye Eye protection recommended
Skin Wear suitable overalls and wash them with soap and water after handling
Hygiene Do not eat drink or smoke when handling product

Physical & Chemical Properties

Appearance	Liquid	Final boiling point (rC)	None
Colour	Milky	Density	1.014
Odour	None	Solubility in water	Totally
pH value	8 ± 0.5	Flash point (°C)	None applicable
Boiling Point (°C)	100		

Stability & Reactivity

Stability and Reactivity Stable under normal conditions
Hazardous decomposition products None under normal conditions

Toxicological Information

The product classification was set up according to the directive 1999/45/CEE.
 This product is not harmful to health or the environment.

Ecological Information

Ecological effects This product is bio-degradable

Disposal

Discard only small quantities of highly diluted product. Clean containers before throwing them away. This waste material is classified as industrial waste and can be handled by the local authority or its contractor. Empty containers should be collected by an approved contractor in accordance with relevant regulations.

Transportation Information

N°ONU / I.D.n° Not classified
ADR/RID Not classified
Labelling ADR Not classified

Regulatory Information

Symbols None
R Phrases None
S Phrases None
Supplementary information VOC < 5 g/l

Other Information

Recommended uses and restrictions None
